- Model solar generation & system layout w/ Solmetric software

Ambrell *Applications Engineer* 5/2014 - 10/2015

- Design induction heat treatment systems w/ Python & lab testing

OPEN SOURCE PROJECTS

MCC Front End Education & LMS App: monroecc.dev

Personal Portfolio: <https://jamievaughn.github.io/>

Open Source Contributions: [stackedCards.js](https://github.com/stackedCards) library, MDN docs repo: mdn/content, SolidJS Docs site, freecodecamp.org curriculum

Github: <https://github.com/JamieVaughn>

TECHNOLOGIES

Frontend: HTML, CSS, Javascript, Typescript, D3.js, Vite.js, Git, Web Components, REST, GraphQL

Frameworks: Svelte, React, Next.js, Redux, Zustand, Solid.js, Stencil.js

Testing: Cypress, Puppeteer, Playwright, Vitest, Jest, React Testing Library

Server: Node.js, Express.js, NoSQL, SQL, Deno, Elixir, Github Actions, Docker, AWS, Azure

PROFESSIONAL CERTIFICATIONS

Monroe Community College:

- Front End Development, 2017

FreeCodeCamp.com Certification:

- Software Engineering, '16 - '17

EDUCATION

Rochester Institute of Technology

- Finished course reqs. for: M.S., Systems Engineering

Case Western Reserve University

- B. S. Materials Engineering

INTERNSHIPS

Logos Energy *Engineer*

- Fuel cell electrode corrosion

General Electric *Engineer*

- Chemical vapor deposition optical coatings

Case Western Reserve U. Intern

- Nafion polymer membrane research for methanol fuel cells
